

# COMPLETE SEAFOOD BOIL

HERBS, LEMON, SALT, & HEAT

---

## Tradition With a Twist

The heart and soul of Louisiana—spice, citrus and herbs blend together to compliment fresh seafood.

---

## Easy, Breezy, Lemon-Squeezy

Our **Complete Boil Mix** is our best selling seafood boil mix. It cleverly tucks the traditions and flavors of New Orleans into each bite of your fresh catch, as the sweet compliments the salty.

This unique and exciting combination of spices and herbs adds depth to your fish and shellfish. Clove and Allspice take center stage, while the yellow mustard and red pepper add tasteful layers of heat to engage and delight restaurant guests.

This blend is citrus forward. The strong lemon and orange presence gives the mix a sweet, fresh, coastal feel and balances the high or low salt seafood perfectly. It also saves chefs the trouble of finding and juicing their own fruit.

## Conquer the dinner rush and wow restaurant visitors

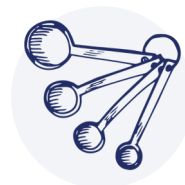

### EFFICIENT

The Complete Boil Mix is a brilliant way to optimize your restaurant's back-of-the-house operation without sacrificing the depth and liveliness of your flavors.

### FLAVORFUL

Restaurant visitors will undoubtedly be impressed by this perfectly calculated mix and the organic and full element it adds to anything that used to swim in the sea.

### UNIQUE

Most boil mixes on the market are garlic-heavy, which limits the flavor to a single layer. Ours is strategically combined, so that all 13 ingredients have a chance to shine.
